Decision Letter (JBCPP.2020.0469)**From:** jbcpp.editorial@degruyter.com**To:** c.teodhora@istn.ac.id**CC:** scientificicph@ff.unair.ac.id**Subject:** JBCPP.2020.0469 - DecisionRevise with Major Modifications**Body:** 05-Feb-2021

Dear Miss Teodhora:

Thank you again for submitting your manuscript ID JBCPP.2020.0469 entitled "Antipyretic Potential of Maja in Fever Induced Male Mice by DPT (Difteri, Pertusis, Tetanus) Vaccine" to Journal of Basic and Clinical Physiology and Pharmacology (JBCPP). Your manuscript has been reviewed and requires major modifications prior to acceptance. The comments of the reviewer(s) are included at the bottom of this letter.

I invite you to respond to the reviewer(s)' comments and revise your manuscript.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/jbcpp> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts Awaiting Revision". Under "Actions", click on "Create a Revision". Your manuscript number has been appended to denote a revision.

You may also click the below link to start the revision process (or continue the process if you have already started your revision) for your manuscript. If you use the below link you will not be required to login to ScholarOne Manuscripts.

PLEASE MAKE SURE TO CONFIRM YOUR CHOICE ON THE WEB PAGE AFTER CLICKING ON THE LINK

https://mc.manuscriptcentral.com/jbcpp?URL_MASK=95b0abf7b683472bafcb19c82c7a13ff

The revised paper needs to be submitted within 3 weeks from now.

When submitting your revised manuscript, you should also respond to the comments made by the reviewer(s). Please add

1. a point-by-point reply to the reviewers' comments
2. and/or a rebuttal against each point that is being raised

You will be able to respond to the comments made by the reviewer(s) under File Upload - File Designation - Author's Response to Reviewer/Editor Critique. Reply to the reviewer(s)' comments is mandatory; all revised manuscripts without reply will be sent back to the author.

You will be unable to make your revision on the originally submitted version of the manuscript. Instead, revise your manuscript and save it on your computer. Please send in a clear corrected version of your manuscript according to the reviewers as well as a format in which you highlight the changes to your manuscript within the document by using underlined or colored text.

Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

Your original files are available to you when you upload your revised manuscript. You may delete these files or keep them. Please pay attention to the order of your uploaded files; the first one is the reply to the reviewer(s)' comments, followed by the revised manuscript, and, if applicable, Tables and Figures, and Supplementary Material. If you decide to keep the original files, these must be the last ones in the order of your uploaded files.

Once again, thank you for submitting your manuscript to JBCPP. I look forward to receiving your revision.

Kind regards
Dr. Suciati Suciati
Guest Editor, Journal of Basic and Clinical Physiology and Pharmacology

Reviewer(s)' Comments to Author:

Reviewer: 1

Comments to the Author

Overall, this is not a clear, concise, and well-written manuscript. The abstract is not reflects the paper's content clearly . The introduction is not relevant and theory based. Lack information about the previous study findings for readers to follow the present study rationale and procedures. The methods are not appropriate. The results are not clear enough. Statistical analysis is not presented and there is no interpretation.

Reviewer: 2

Comments to the Author

The authors should consider in several points below:

1. Title is unclear.
2. The author should describe the novelty and urgency of study.
3. Describe the method detail, material including the brand etc.
4. The reference of method should be included.
5. Discussion section should describe the parameter to categorize the level activity of substance.
6. Describe the Information of compounds from the previous study in this plants in the discussion section.
7. Conclusions mention " The dose of 500 mg/kg weight gave the best decrease in body temperature of mice but did not differ significantly from ibuprofen" , does this dose promising for develop Maja as drug development for antipyretic?
8. English proofread is necessary to improve the quality of paper

Editor's Comment to author:

- Based on the result of similaity check your article has 46% similarity index (file attached), which is above the requirement of the journal (30%). We suggest you to rewrite/paraphrase some sentences to fulfill this requirement.
- Please be sure to correct any grammatical errors or tyrographical errors in the manuscript
- Author should proof read the article prior to submission of the revised manuscript. Evidence of the proof reading should be attached together with submission of the revised manuscript.
